

común
come in, come undone

Nestled in the rugged mountains of Ibiza, somewhere between the sun-drenched landscape and breath-taking scenery evoking a blissful feeling of serenity, stands Común.

An immersive co-living and well-being sanctuary to reconnect with (oneself true) nature.

'By stepping into the doors of Común you enter into a sanctuary of charm and refinement that will provide the fertile soils for a body to be nourished, a mind to relax and a heart to expand.'

NOMADIC

CULTURE

The essence of Común is felt and not touched. It's a way of being with a high regard for freedom, nature and (re)connection. The concept lives within the soul of its founders and the Común community beyond a tangible form for an ever-evolving journey.

'Común is a lifestyle, an unexcused form of living in a world where frames are indispensable.'

ANCIENT

FINCA

Común is built on the foundation of a family home, where happiness and sacredness are felt in each detail.

Here on the sacred ground of Ibiza she the founders found the ancient finca that and immediately captivated and transfigured the ruin into an immersive sanctuary with a perception to welcome travelers to a safe environment in which they can learn tools to connect with their intimate self.

'The warmth of this haven lies in its sincere hospitality and unrestricted freedom. By offering a space free from judgement, free from distraction, free from societal norms.

As the aim for our guests is to explore freely and fill their time with whatsoever brings them joy and well-being.'

SANCTUARY

ROOMS

Guests accommodations takes the form of three sanctuary rooms built using natural materials and are purposely stripped-back to create spaces free from distraction.

Earth, wood and concrete are delicately combined with clay and sand to immerse visitors in a unique spatial experience, where nature and architecture interact almost seamlessly.

The three spaces each come with their unique character and shape sized from 17m² to 25m², include a king sized bed and private bathroom or shower room.

We provide a curated selection of well-being products by Ryoko and artwork will be present in each sanctuary room.

Pricing

*Low Season (October-March)
390 EUR / night, 2 night stay minimum*

*High Season (April-September)
580 EUR / night, 3 night stay minimum*

HEALING

PHILOSOPHY

The healing philosophy of Común is centered on Kundalini Yoga. It is practical for modern life yet draws its power from the ancient yogic techniques of conscious breath work (pranayama), sacred sounds (mantra,) hand gestures (mudra), meditation and exact physical movement sets (kriya).

These techniques will be provided by a network of holistic experts curated and led by Head of Well-being, Chiara De Lucia.

The healing practices are offered in a non-compulsory manner with the highest regard for a tailormade approach. Throughout the sanctuary healing tools are offered to encourage moments of silence and introspection and healing practices can be provided by personal request.

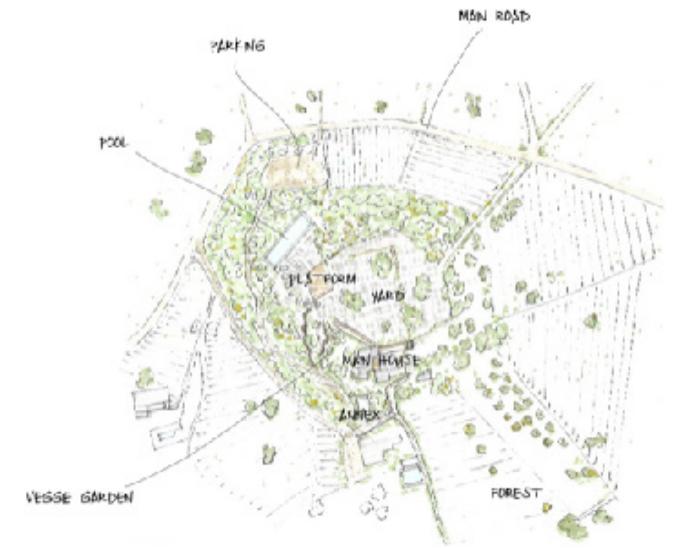

For a tailormade journey please contact: hola@comun-living.com

COMÚN

IBIZA

Común Ibiza is based on Feng Shui, the ancient Chinese art of living based on the balance of energy or ch'i, a universal and positive force. This technique was purposely integrated into the sanctuary to unconsciously uplift a sense of calmness and happiness and to revitalize the ability to achieve one's full potential.

The unelaborate and laid-bare simplicity roots the concept and facilitates guests to wander the location whilst constantly being surrounded by nature.

The sanctuary holds a vegetable garden for growing local fruits and vegetables and a large outdoor swimming pool.
